Owning an old home is a big responsibility; not only does that mean lots of maintenance, but there are also tough choices to make about how to upgrade your house for modern life.

Owning an old home means owning a piece of our past; work you do on your old/heritage home allows you to paint yourself into the picture of your building's history.

At Heritage Wood and Stone we understand what owning old homes are all about. We have specialized carpentry and masonry skills for old/heritage buildings. We maintain, repair or recreate wood and stone features of your home. We combine traditional styles and concepts with modern tools and technology... you get wood and stone features that look immaculate and that meet modern-day expectations.

Body-Mind Wholeness Clinic Tel: (705) 687-3740 info@body-mind.ca
95 MANITOBA ST., BRACEBRIDGE, ON

My services essentially include: Shiatsu therapy, Clinical Acupuncture, and 3 other Energy Therapies.

***Shi-atsu**, literally finger-pressure, is a Japanese technique which applies pressure on selected meridians points, to normalize the human energy flow, and restore health and vitality to the person. From a Western medical perspective, Shiatsu calms the overactive sympathetic branch of the nervous system which leads to stress and illness, and switches on the parasympathetic which activates the body's natural healing and nurturing capacities.*

***Acupuncture**, just like Shiatsu, re-balances the human energy. The difference is that acupuncture uses painless fine needles in selected points instead of pressure. Acupuncture may also include heat, cupping, electro-stimulation and Chinese massage.*

From all Oriental practices, Shiatsu and acupuncture are most popular, simple and effective natural health therapies. www.body-mind.ca
